

## Minutes from ASP Operations meeting

Date: April 7, 2016

Present: Emmelia Wiley and Egon Frandsen

Absent: Kunuk Lennert, Carl Isaksen, Cris Seaton

Referee: Egon Frandsen

### 1. Cargo

- 1.1. All cargo arrived from Canada and got on the Antonov flight on March 23 from Aalborg
- 1.2. The last item (Lisst instrument) from the Canada shipment arrived in Silkeborg on March 29 and it is forwarded to Nuuk together with Tim's Contros instrument for Wieter's project. All Cargo to Nuuk is shipped and will arrive in Nuuk within 2 weeks from now
- 1.3. The Seabird and EdgeTech shipments are in Silkeborg. Cris and ERF will have to register the instruments when Cris is in Silkeborg later this month.
- 1.4. The floats shipment has arrived
- 1.5. The CJ Mundy/Mikael Sejr Shipment will be picked up today in Winnipeg
- 1.6. ERF are working on a Access database to manage all the shipments – but it will take a while before it's running (not expert in databases!)

### 2. STN April 2016

- 2.1. The campaign is running. Unfortunately without major problems. Must find a way to sort out what cargo we want to return from STN in a week or so.
- 2.2. We didn't manage to supply the team with some fuses for the Thermo Ice Drill system since there are no flights before April 13 and they go home on April 15

### 3. Insurance on cargo

- 3.1. ERF will start clarify the rules for have the cargo insured and how to do if we should do it. In DK we sometimes have taken the insurance other times not. In Canada it's not done, but maybe the University has insurance?

### 4. Others

- 4.1. Cris is in DK in the period April 17-22 to work with Egon on the moorings systems for Daneborg and Sanna cruise
- 4.2. Egon Is coming to Winnipeg April 26 until May 4 to work with Marcos on the MS in the lab and more.
