

## **Minutes from ASP leadership meeting**

Date: 31 October 2017  
Present: Peter Mikkelsen (PM), Tim Papakyriakou (TP), David Barber (DB),  
Malene Simon (MS), Søren Rysgaard (SR)  
Referee: SR

### **Agenda:**

#### **1. Status field campaigns**

Field campaigns are coming to an end. Lots of activities (again) this year.

#### **2. AWI visits Bremerhaven 10 January 2018.**

A date has been set for a planning meeting on a closer collaboration between ASP and AWI. Participants representing the different organization teams will join.

#### **3. ASP annual meeting and Arctic Frontiers conference 22-26 January 2018**

Agenda for the upcoming meeting is found on the ASP homepage. The meeting will start with an all team meeting 22/1. The 23<sup>rd</sup> morning will be dedicated to individual e.g. administration, operations/laboratory, communication, leadership and science teams. Afternoon 23<sup>rd</sup> will be an open to the public presentation of ASP. Individual team meetings will continue 24/1. Departure 25/1.

#### **4. Applications**

Various applications have been submitted e.g. BBOS, CERC, Canada-150, NSERC, DFF, ERC, Villum, Carlsberg, Dancea, EU. Several involving scientists from different ASP partners.

#### **5. EU PolarNet white paper**

Very positive reports from the scientists joining the different EU PolarNet

writing teams was received.

#### **6. Arctic Circle meeting 12-15 October 2017 in Reykjavik**

ASP members joined the Arctic Circle meeting in Reykjavik. GINR and ARC organized parallel meetings. Participants from ministers and government agencies from DK and GL.

#### **7. Horizon2020**

We have started to form consortiums for the recent calls. Meetings are organized by UiT in Oslo 2-3 November to discuss how to organize and what to be our main joint focus.

#### **8. Isaaffik status**

The internet portal Isaaffik is developing (<https://www.isaaffik.org>). We have recent interest from various new institutions to join - a particularly interesting one is the NSF. The Greenland Self government considers making it mandatory to registration science projects occurring in Greenland in Isaaffik.

**Next meeting in the ASP leadership:** December 05 2017
