15. NTNU to become an associate member of ASP

Status

1. Dorthe is working on a date and place for this meeting. Will have this ready at the next monthly ASP meeting (Dorthe).
2. Uwe did not participate in the meeting today - Søren will follow up. (Uwe/Søren).
3. We have presented a white paper on GIOS to the Greenland Government and submitting a paper describing the program to Arctic Observing Summit conference as a discussion paper for an Arctic Integrated Observing System (**Done**).
4. We aim for a date and place for this meeting at the next ASP meeting (Søren).
5. We aim for a date and place for this meeting at the next ASP meeting (Christine).
6. Marcel and Søren submitted an ERC Synergy application to get this started (**Done**).
7. Claus suggest that we setup a calibration facility to calibrate instruments together. Will save money and make sure we all measure the same (Claus).

8. ASP education collaboration meeting.

Summer school 1. step:

UArctic Thematic network proposal: Arctic system Land-ocean-ice-atmosphere interaction (Lotte).

9. Phill has worked with this and will present at our next meeting. (Phill)

10. Done.

11. Peter will update at our next meeting (PBC).

12. Business as usual - routines up and running (Done).

13. Laboratory new team - has started to reach out (Marcos).

14. Business as usual - routines up and running (Done).

15. NTNU (Asgeir et al) have asked to join the ASP as associate member and there was a positive attitude to this. UiT, AU & UL already work closely together. We will discuss this within the groups and make a decision at the next meeting. We need all participating institutions and the leadership to be present to make this decision.

Next meeting

3 December

Notes - Søren
