

## Minutes from ASP monthly meeting

Date: 4 January, 2022

Present: UL, UM, AU, AWI, KU, UiT, NTNU

Absent: DFO, GINR

### **ASP annual meeting will be held on zoom. Physical meeting is cancelled.**

We will instead have a virtual meeting on upcoming activities. Søren will send out agenda for the meeting.

Everyone mail Søren their planned activities in 2022 and larger scale activities planned (funded or already submitted) from 2023-27.

### **Round table:**

UiT: Not much new activities since last meeting. Working from home. Cruses planning.

UM: Not a lot new as yet. Proposals and working from home. CMO started. Cruses planning. SERF activities smaller this year.

UL: Amundsen campaign proposal to 2022-23 in Baffin Bay, Nares Strait. Tara ocean moving forward again. No news on funding yet. ERC synergy application submitted. Aim for field campaign between 2025-27.

AU: Continuing education in Greenland collaboration between GINR and AU in 2022. GIOS autonomous systems still transmit data from the field using only solar and wind energy sources.

KU: East Grip starting up slowly - hope to get to the field. The camp is drowning in snow. Working on science program to organise overwintering in the NOW.

### **Joint Laboratory activities:**

Inter comparison between laboratories has started. Shipping problems.

Karley will hold on samples and update the teams with the next step. Looking into costs of dry shippers.

All institutions please direct your lab responsible person to Marcos ([marcos.Lemes@umanitoba.ca](mailto:marcos.Lemes@umanitoba.ca)) so we can expand the collaboration between labs.

Next meeting will be 1 February 2022.

Notes - Søren
