

Minutes from ASP monthly meeting

Date: 4 July 2023

Present: UM, AWI, AU, GINR, KU, DFO, UL

Absent: NTNU, UiT

Agenda

1. Follow up on ASP project “Linking atmosphere, ice, and ocean” (NOW2NEW)
 - Ice drilling – Müller & Hans Tausen icecaps (team: Bo (lead), Olaf, Maria, Fei)
 - Trans Polar Drift – Tara, St. Nord, Alert, Pearl, Svalbard (team: CJ (lead), Mathieu, Andreas)
 - Atmosphere, sea ice, ocean interactions (team: John (lead), Torsten, Philippe, Jens)
 - Overview – register projects, logistics, people, and metadata at Isaaffik Arctic Gateway. Mark with “ASP” tag (All teams)
2. Other updates from ASP partner institutions
3. Next Meeting

Minutes

Update NOW2NEW:

Ice drilling – Müller & Hans Tausen Icecaps

Not a lot of activities have happened since last meeting. Follow up radar on Mullers. No news from Hans Tausen Icecap according til Bo. Planning meeting for next year's activities in Müllers is expected in October.

Trans Polar Drift (TPS):

Several teams are working on the sampling list for the TPS.

Atmosphere, sea ice, ocean interactions:

Unfortunately, both UM BBN proposals were not funded. Need to figure out what next.

Registering:

Remember to register projects in the Isaaffik <https://isaaffik.org/> . Mark each project an “ASP” tag from the “Topics” list.

Other updates from ASP partner institutions:

- CFREF proposal from Dalhousie was funded. UL is part of it - look at oceanography linking Arctic to North Atlantic regions. Lots of activities in Baffin Bay over the next 7 years.
- Scientists out on field work. Both ships work. Jose became the new director of GINR.
- Working on AWI ship time proposal to do work in North and East Greenland along the coast - close connection to ASP. Dirk visited Ice sheet and very happy for the visit and discussing logistics with the people there. Polar Stern is in the Arctic. Also, teams around Northern Canada coming in all through November.
- KU awaiting news for the Ice sheet that they hit the bottom.
- AU packing and sending off equipment to the field. Most work in NE Greenland this year.
- News for lab team - Stable isotope comparison and sample analysis for the Müllers.

Next meeting will be 3th October 2023.

Notes -
Søren
